Profile

Expert **AI-Native Full-Stack and Backend Engineer** with 8+ years of experience leading the design and delivery of high-load, scalable systems from concept to deployment. Proven track record scaled project revenue, resolved critical bugs 90% faster, and led teams of 8+ engineers. Deeply skilled in **backend architecture (PHP 8+, Python, Node.js, C#)**, **frontend technologies (React, Vue, Angular)**, **SQL/NoSQL databases (PostgreSQL, MySQL, MongoDB, Redis)**, OWASP Top 10, secure SDLC integration, security automation, and **cloud/DevOps (Docker, CI/CD, IaC)**. Integrates **AI workflow automation** (LLMs, n8n, agentic workflows, vibe coding) where it brings clear value. Passionate about **security** and **code quality** (SonarQube, code reviews, TDD), **mentoring**, **system performance**, and **graceful degradation**. Ready to lead technical strategy, build secure and reusable platforms, and drive end-to-end project success.

Professional Experience

Engineering Manager & Tech Lead

Modern Solar (PVT) Ltd. – Sri Lanka | Sep 2024 – Jan 2026

- Led a team to architect a **solar monitoring platform** (combined over 1MW capacity) – designed scalable backend (Python, MQTT, Redis), cloud dashboards, and real-time data pipelines.
- Mentored junior engineers, ran Agile ceremonies, and aligned technical roadmap with business KPIs.

Senior Software Engineer (Full-Stack / Backend Lead)

Eight25Media – Hybrid (US/AU) | Apr 2021 – Sep 2024

- Scaled project portfolio (7× growth) by delivering enterprise full-stack solutions.
- Resolved critical production bugs **90% faster** using structured debugging and CI/CD pipelines (GitLab CI).
- Integrated **3rd party services** via REST APIs and webhooks for data sync.
- Led **code reviews**, established coding standards.
- Managed cloud infrastructure (AWS) – Containerized applications using Docker, Cloudflare WAF/CDN, automated backups with shell scripts.

Full-Stack Engineer

Hype Web Agency – Sri Lanka | Apr 2020 – Mar 2021

- Sole developer of **Endako** e-commerce marketplace (PHP Laravel, MySQL, Flutter mobile).
- Independently built **multi-tenant Pharmaceutical ERP** with real-time stock, procurement automation, REST APIs.

Systems Engineer

Modern Group – Sri Lanka | Feb 2016 – Apr 2020

- Designed solar systems (5–30 kW) and developed internal monitoring dashboards (LAMP stack).

Technical Skills & Competencies

- **Backend:** PHP 8+ (Laravel, OOP, MVC), Python (FastAPI, Flask), Node.js/Express, C# (.NET Core)
- **Frontend:** React, Vue.js, Angular, TypeScript, SCSS, module bundlers, Tailwind, Behavioral Targeting, Internationalization (i18n) and accessibility (a11y), GDPR
- **DevOps:** SAST/DAST, Git, CI/CD (GitLab CI, GitHub Actions, Jenkins)
- **Security:** OWASP, Kali Linux, Burp Suite, ModSecurity, Fail2ban, UFW, Cloudflare (DNS, CDN, DDoS), Let's Encrypt/Certbot, SSH hardening
- **APIs & Integrations:** RESTful APIs, gRPC, GraphQL, webhooks, Protobuf
- **SQL:** PostgreSQL, MySQL, MariaDB, SQL Server, MariaDB
- **NoSQL:** MongoDB, Redis, Elasticsearch
- **Databases:** Schema design, optimisation, migration, sharding (PostgreSQL, MySQL, MongoDB, Redis)
- **AI & Automation:** LLMs (OpenAI, Anthropic, Google), LangChain, n8n, agentic workflows, RAG pipelines, vibe coding (prototyping/automation)
- **AI-assisted development:** GitHub Copilot, Cursor, Phind – used daily for code generation, refactoring, debugging, test creation, and documentation
- **Linux:** Debian/Ubuntu administration, Bash shell scripting, cron jobs
- **Web Servers:** Apache, Nginx
- **Containers & Orchestration:** Docker, Kubernetes
- **Cloud:** AWS, GCP, Azure, Vultr
- **Monitoring:** Prometheus, Grafana, ELK stack, Cloud Logging/Trace
- SonarQube (code quality gates, 99% achieved)
- Code reviews, TDD, clean code principles
- Jira (boards, reporting, workflows), Agile/Scrum
- Technical roadmaps, mentoring, end-to-end delivery, risk management

Education & Certifications

B.Eng. (Hons) in Software Engineering

London Metropolitan University (UK)

HubSpot Certified Developer

HubSpot Academy

OWASP Top 10 (Proficiency) – hands-on production experience

Burp Suite / ModSecurity / Kali Linux – production implementation and active usage
